

THE Breyer

BRIEF

JUNE / JULY 2021

Celebrating Our Healthcare Heroes

Here at the Husband & Wife Law Team, we have seen how the pandemic has affected our brave and dedicated healthcare workers. As constant advocates for accident victims throughout Arizona, we have heard countless stories of overwhelmed hospitals and the difficulties of getting treatment during the pandemic. But throughout all these stories, we were inspired by how healthcare workers rose to the occasion and fought on behalf of their patients.

As our way of saying thank you, we teamed up with Dignity Health Foundation East Valley. Together, we are recognizing the over 4,000 healthcare workers at both Chandler Regional and Gilbert Mercy Medical Centers with a \$10,000 donation to the "Guardian Angel Program." This special program provides a unique way for patients and family members to recognize hospital employees who have made a difference in their life during their hospital visit. With the additional funds,

employees will receive plaques, gift cards, lunches and more.

Recently, in honor of Hospital Appreciation Week, The Husband & Wife Law Team hosted food truck events and treated over 900 of the Dignity Health employees to lunch. Biscuit Freaks food truck was on site at both Chandler Regional and Gilbert Mercy Medical Center to serve both the lunch and graveyard shifts. (Editor's note: If you have not tried Biscuit Freaks food truck, you are missing out!) Baxter the Bobcat also came out to help us raffle off a Diamondbacks experience for a family of four and autographed baseballs during the lunch hour.

"We are honored to be part of Dignity Health's Guardian Angel Program that recognizes day-to-day heroes that truly make a difference each and every day."
-Mark Breyer.

Everyone here at the Husband & Wife Law Team is constantly inspired by the brave actions of our healthcare workers. We will continue to serve our community in any way we can and advocate for the safety and health of all of our neighbors, both within and outside the courtroom.

If you would like to recognize a member of your care team as a Guardian Angel, visit us at breyerlaw.com/dignityhealth.

Every Day Is Like Mother's Day

A throwback to Mother's Day... What an amazing Mother's Day I had this year! All of the kids came back home and we got to spend the day together - just the ten of us. Mark had a good Father's Day as well, but all the kids could not come into town.

Zev brought his new puppy, Boomer, to Arizona. Boomer is a puppy who keeps Zev on his toes but everyone loves having Boomer and Zev at home. Zev is obsessed with Boomer and now Zev understands why as his mom I am so obsessed with Zev. Zev has completed his 2nd year of law school. I only told him about 1,000 times how much I missed him.

(Editor's Note from Mark: I can admit when I am wrong. I told Zev not to get Boomer... too much work with all Zev has going on. But watching Zev play with and love that dog it is clear that Boomer is great for Zev and Zev is great for Boomer.)

Tate finished his sophomore year at the University of Arizona. He is taking a semester off because he worked so hard he has extra credits. He plans to make use of the semester off by getting his real estate license and wants to try to get his pilot's license which is kind of scary for me! He seems excited about it though. The most amazing thing is he is going to move home for the semester so we are trading Tate for Ariella next semester!

(Editor's Note from Mark: Tate is having his share of fun at college. I would say his ability to take off a semester has a lot to do with his "dual enrollment" credits where his high school courses also got him college credit. Either way, how awesome that he can have a break and learn some new things before heading back to school.)

Talia tried out for her dance team and made it! She has been working teaching little kids how to swim. Junior year in high school online has been challenging for her but she has been working really hard. Sometimes you give something to the most busy person and they are the ones to get it done... and that's for sure Talia!

(Editor's Note from Mark: How are these kids going to handle regular school next year? Talia chose to stay home the last quarter of the - usually - hardest year of high school. And she ended up doing very well in her classes even while dancing 5-6 days a week and working some. Now she has added dance team for her senior year. The girl is non-stop.)

Karina has been dancing also, like Talia, and has been attending a lot of dance conventions over the summer! She is the one who works tirelessly to keep learning. She even watches videos on YouTube all weekend. She spent a lot of time with Boomer and Brezlynn (Zev's dog and our dog) taking them out together, although Brezlynn was not too keen on sharing her time... kind of like Kailey with her dad...

(Editor's Note from Mark: Karina does not just watch dance in her room... she dances. She can be found working on dance when she is supposed to be sleeping, sometimes. And, yes, our dog Brezlynn made it clear to Boomer that this is HER house, not Boomer's.)

Kailey came from Austin to visit. Her company - Kailey's Queens - had a TV spot in LA which she was so excited about. Google Kailey's Queens and check it out! She got to meet a lot of her girls that she sees online in person. Kailey and Mark got to go out to dinner all by themselves which is something Kailey loves to do and was excited about. Kailey got me an amazing caricature of the family for Mother's Day which was really cool!

(Editor's Note from Mark: Kailey and I talk a lot on the phone - though she thinks I do not talk to her enough! - but it was really nice to sit there with just the two of us catching up on her friends, her business, Austin, and her life in general. Just father and daughter and buffalo cauliflower... if you haven't tried buffalo cauliflower, you should!)

Ariella is off to the University of Wisconsin. Don't ask how she decided on that one! She is definitely going to be cold but everyone she talked to who went to Wisconsin loved it so much, so she is very excited. She had to pick her roommate in one day which was challenging but she got it done so now we need to figure out how to get her a whole new wardrobe!

(Editor's Note from Mark: Ariella had ruled out cold weather for college. But she visited Wisconsin and that changed her mind. Born in Arizona, raised in Arizona... this should be interesting! Mostly, though, it is great to see a kid who worked so hard get a chance to experience something new and she is so excited it makes it that much better.)

Pierce and I had a lot of time toward the end of the year as I helped him review his geometry for the final. I forgot how hard geometry is! Pierce even woke up at 8:00am to start studying and doing his work before his flag football game that Mark coaches. Mark woke up early to come up with all new defensive plays! When they got home Mark and Pierce were excited because Pierce was quarterback and won the game. Mark of course was convinced it was all his new defensive plays!

(Editor's Note from Mark: It was a whole new offense and defense I wanted to test out. In truth, as coach I never feel like I win the games, but I often blame myself when we lose! And Pierce was required to do math right up to the moment we left and again when we returned. You may wonder why I didn't help... it is because I have no clue whatsoever how to do that work. Good thing we have Alexis!)

Cade - During Mother's Day we spent a lot of time playing Monopoly. Cade partnered with Tate and loved the game. Cade kept talking about how he wants to keep playing and convinced Zev to play with him online. Cade was intensely listening to Zev explain his tactics for how he won our family Monopoly game. Cade had a super weekend because he won his flag football game and his basketball game!

(Editor's Note from Mark: I do not think I ever finished a game of Monopoly in my life with even 2 or 3 people. We had 8 and finished in about two hours... because there is an online version. Same game but it moves faster. Cade had a great moment when his teammate - Tate - said to quit as they could not win. Cade refused to quit and was able to stay alive several more turns. They did lose in the end, but Cade learned to fight through some Monopoly adversity and gave himself a chance which was great to see.)

The Husband & Wife Law Team Donates Bikes With D-Backs Give Back

As part of our commitment to keeping bicyclists safe throughout Arizona, The Husband & Wife Law Team partnered with D-Backs Give Back on June 4 to gift new bikes to kids at the Thunderbirds Branch of the Boys & Girls Club in Guadalupe! Each kid went home with a bike and a helmet, as well as a lesson in bike safety from members of the Guadalupe Fire Department, and the chance to meet D. Baxter the Bobcat.

D-Backs Give Back is the charity arm of the Arizona Diamondbacks, which has sponsored several events across the state focused on sports and youth safety.

The Husband & Wife Law Team never misses the chance to bring a smile to a child's face and teach them the importance of bike safety. We are incredibly proud to have worked with D-Backs Give Back.
