Please tell us, in your own words, about your accident (how did it happen, etc.) and your experience with our office? Yes you may.

Our daughter was purposely injured at daycare in September 2016 and she now suffers from Epilepsy, Cerebral Palsy, Traumatic Brain Injury, and Shaken baby syndrome. She just turned 2 and she cannot talk, walk, crawl or sit up without assistants. Shes on a feeding tube and daily seizure medications. Shes already had multiple surgeries and more to come in the future. This has been a hard process to go through as the daycare did not get charged for what they did. The Bryer law team has been there with us from the start and we couldn't of asked for a better team to have with us on this journey we will be on for the rest of our lives. They are very caring and compassionate.

What would you say to someone who was considering hiring our office who was hesitant to become involved with a lawyer and who thought they could handle their claim on their own? I would tell them that it can be and is a process to go through but that they will not be disappointed with this team.
